 Photo	Name in Full	Sung-Hoon Moon
	Country	Korea
	Affiliation	Hallym University College of Medicine
	Email	endomoon@hallym.or.kr

Educational Background

Chonnam National University Medical School
 Chonnam National University Graduate School (Master)
 University of Ulsan The Graduate School (PhD)

Professional Career

Assistant Professor, Dankook University College of Medicine (2011)
 Assistant Professor, Hallym University College of Medicine (2012-2015)
 Associate Professor, Hallym University College of Medicine (2015-2023)
 Professor, Hallym University College of Medicine (2024-present)

Research Field

Autoimmune pancreatitis & IgG4-related disease
 Pancreatic cancer
 Cholangiocarcinoma
 Endoscopic ultrasonography

Papers, Books, etc. presented or published by your name

(topic title, year, conference name or presenting books)

Endoscopic ultrasound-remedvours versus percuanteous-endoscopic remedvours endoscopic retrograde cholangiopancreatography for bile duct access: systematic review and meta-analysis, 2024, Dig Endosc.

Differentiation of autoimmune pancreatitis from pancreatic adenocarcinoma using CT characteristics: a systematic review and meta-analysis, 2023, Eur Radiol.

Effective and complication rates of percutaneous transhepatic fluoroscopy-guided management of common bile duct stones, 2023, Eur Radiol.

Inadvertent double puncture of the stomach and duodenum during EUS-guided pseudocyst drainage: Caution against puncturing from the gastric antrum, 2023, Gastrointest Endosc.

Systematic review and meta-analysis of MRI features for differentiating autoimmune pancreatitis from pancreatic adenocarcinoma, 2022, Eur Radiol.

ADC values from diffusion-weighted imaging may be lower for autoimmune pancreatitis than for pancreatic ductal adenocarcinoma, 2022, Dig Liv Dis.

Brush cytology, forceps biopsy, or endoscopic ultrasound-guided sampling for diagnosis of bile duct cancer: a meta-analysis, 2022, Dig Dis Sci.

Systematic review and meta-analysis of percutaneous transluminal forceps biopsy for diagnosing malignant biliary strictures, 2022, Eur Radiol.

Fluoroscopic criteria for on-site evaluation of failed intussusception reduction during air enema technique, 2022, Quan Imaging Med Surg.

Endoscopic ultrasound-guided fine needle aspiration versus biopsy for diagnosis of autoimmune pancreatitis: A systematic review and comparative meta-analysis, 2021, Dig Endosc.

Determination of the duration of glucocorticoid therapy in type 1 autoimmune pancreatitis: a systematic review and meta-analysis, 2021, Pancreatology.

Diagnostic performance of EUS-guided sampling in indeterminate radiological diagnosis of pancreatic disease and intraabdominal lymphadenopathy, 2021, J Clin Med.

Immunotherapy for pancreatic cancer, 2021, World J Clin Cases.

The use of immunohistochemistry for IgG4 in the diagnosis of autoimmune pancreatitis: A systematic review and meta-analysis, 2020, Pancreatology.
